

AMENDMENTS TO THE CLAIMS

Please amend the claims as indicated hereafter.

1. (Currently Amended) A method implemented by a television set-top terminal (“STT”) comprising the steps of:
 - providing a list of rentable video presentations by their respective titles;
 - receiving viewer input configured to select ~~on~~ one of the titles ~~video presentations~~ from the list of rentable video presentations
 - associating the selected rentable video presentation with a reminder list responsive to receiving the viewer input; and
 - responsive to associating the selected rentable video presentation with the reminder list, providing reminder information to the viewer, the reminder information being configured to remind the viewer while the selected rentable video presentation remains rentable of the expiration time for rentability of the selected rentable video presentation via the STT ~~that the video presentation will no longer be available for rent via the STT after a predetermined time.~~
2. (Original) The method of claim 1, wherein the step of providing reminder information is performed responsive to viewer input requesting access to the reminder list.
3. (Currently Amended) The method of claim 1, wherein the step of providing reminder information is performed responsive to viewer input requesting access to a list of video presentations currently available for rent.
4. (Original) The method of claim 1, wherein the step of providing reminder information is performed via a barker.

5. (Currently Amended) A television set-top terminal (STT) comprising:
memory configured to store program code; and
a processor programmed by the program code to enable the STT to:
associate a selected rentable video presentation with a reminder list responsive to
receiving viewer input; and
provide reminder information to the viewer, the reminder information being
configured to remind the viewer while the selected rentable video presentation remains
rentable of the expiration time for rentability of the selected rentable video presentation
via the STT ~~that the video presentation will no longer be available for rent via the STT
after a predetermined time.~~

6. (Original) The STT of claim 5, wherein the processor is programmed by the
program code to provide the reminder information responsive to viewer input requesting
access to the reminder list.

7. (Currently Amended) The STT of claim 5, wherein the processor is programmed
by the program code to provide the reminder information responsive to viewer input
requesting access to a list of video presentations currently available for rent.

8. (Original) The STT of claim 5, wherein the processor is programmed by the
program code to provide the reminder information via a barker.
